Re: Case # 96-307
1615 S. Pope Lick Road

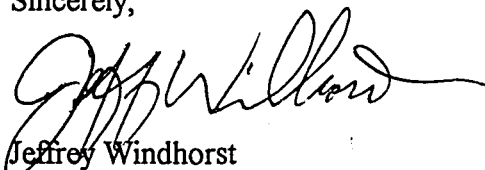

Dear Mr. Mills,

How close is too close? Please find enclosed a photograph of the proposed site for the Sprint cell phone tower. From Pope Lick Road to the other side, the property is only approximately 190 feet wide. I feel this will position the proposed tower entirely too close to the road, clearly in view of all who live near and drive by. The area trees are 50' tall at best. Could weather cause this tower to fall? If so, would it land across the road causing an accident? Is this tower a hazard? All valid questions I ask you to consider.

Also, regarding the owner of the property. Gearon & Company indicated that the property owners lives next to the proposed site. The owner has two separate tracks of property. The proposed tower will be on one, he lives on the other. **He currently has his house up for sale!** He's moving, but he'll still own the adjacent track with the proposed tower. My concerns over absentee owner are valid.

Again, I am urging you to closely consider this matter. I feel neighbors on S. Pope Lick Road have paid the price for progress in eastern Jefferson County with high tension power lines and the Gene Snyder Freeway nearby. Pope Lick is still a nice little country road, you can help keep it that way.

Sincerely,

Jeffrey Windhorst
